

Executive Director Workshop Series and
Executive Director Network Meeting

Values Based Budgeting

As we move forward in our province growing quality early learning there is a clear connection to our pedagogy and our financial growth and viability. We often begin our budgeting process with what we can't do. What if we considered a different approach? How can our vision and values be the driving force in our budgeting process? And how can we consider the voices of our people inside of this process? Join Lorrie Baird and Sheila Olan-MacLean for this half day session that will engage you in dialogue and dreaming.
