Children's Actions, Relationships, and Emotions (C.A.R.E.) Behaviour Screening Tool

The Children's Actions, Relationships, and Emotions (C.A.R.E.) is a fifty-three item questionnaire/scale designed to screen for behavioural, social, emotional concerns in children, twenty-four to seventy-two months of age, within child care settings. Its purpose is to assist early learning and child care professionals in determining if a Behaviour Consultant is recommended for support of the child.

We are recommending that our staff complete the Children's Actions, Relationships, & Emotions (C.A.R.E.) behaviour screening tool with your child. The results will be shared with you. Do you consent?
